MusiCompanion

YOUR MUSIC COMPANION

Your instrument has found a companion!

It keeps the beat, listens to you play and keeps track of your practice, day after day.

Snail or hummingbird?

Both! In the app, you'll meet *Musi*, who will share his secrets for becoming as fast as the hummingbird.

Too high, too low?

The tuner helps you hear whether your note is in tune.

Earn stars

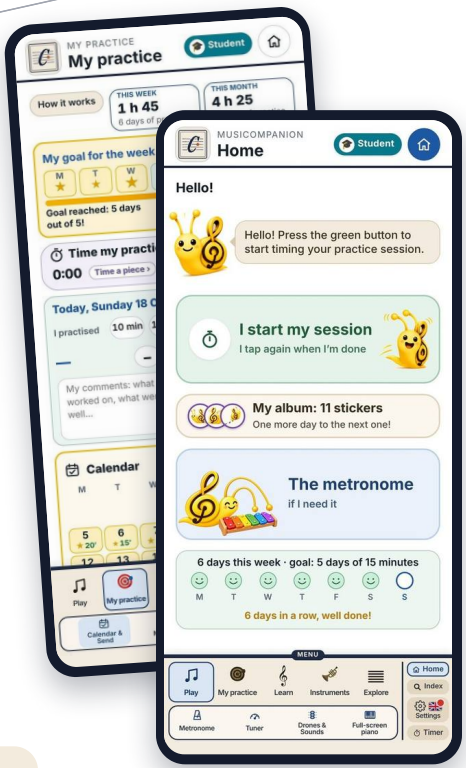
With your teacher or your parents, you can choose your practice goal. Every day you reach it, a star lights up in your calendar.

Hear your progress

Record yourself and listen back. And if you like, you can send your recordings via WhatsApp and write notes in your practice diary.

Tap and sing!

To make music theory fun, the app gives you rhythms to tap, dictations and melodies to sing. It invents a new exercise every time.



Front: Home (*Young child* profile)
Back: My practice (*Independent child* profile)

In the app, the ***I'm learning music*** profile is made for you.

And also

- Metronome with tap tempo
- Drones and piano
- Stopwatches
- In 4 languages, offline and ad-free
- Music theory explained simply
- Interval, scale, rhythm and melody exercises
- Discover and train your singing voice
- 850 composers to discover
- ***Musi's secrets***

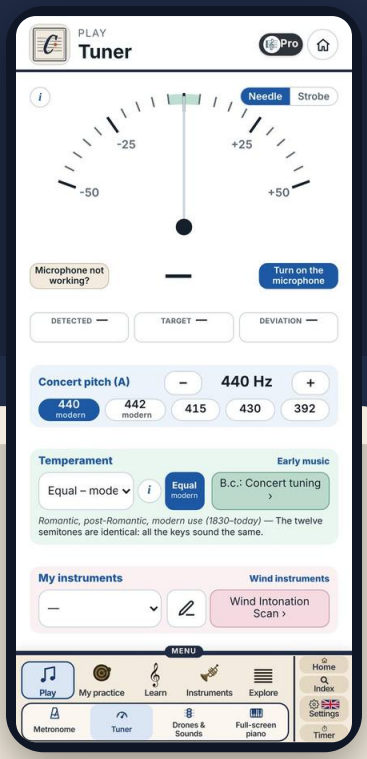
MusiCompanion

PROFESSIONAL MUSICIANS, TEACHERS AND AMATEURS

Designed by teachers for teachers *and for musicians of all ages and levels.*

Made for young pupils as much as for professional classical musicians.

Five profiles: *I'm learning music*, *Pro musician*, *I use my voice*, *Early music* or *General*. The first four keep only the pages you need.



Tuner (*Pro musician* profile)

Inside the app

PLAY

- **Tuner** with automatic microphone; A 440 Hz, equal temperament
- **Strobe tuner**; pitch from 380 to 470 Hz
- **Historical temperaments** and up to 15 personal temperaments saved
- **Metronome**, tap tempo, 30 saved tempos for the pieces you are practising
- **Drones & sounds**: piano or organ sounds, tuned to the chosen pitch and temperament

MY PRACTICE

- **Stopwatches** for the session and each piece, calendar
- **Weekly goal** and stars (child mode)
- **Recordings** (15); **comments** typed or dictated
- **Sending**: send audio or comments by email or WhatsApp

INSTRUMENTS

- **Scan for modern wind instruments**: note-by-note corrections as a PDF, in equal temperament
- **Historical Winds Assistant**: finds the instrument's natural pitch and the best-suited temperament
- **My instruments**: 15 instruments saved with their pitch and temperament
- **Concert temperament (B.c.)**: for harpsichord and continuo, the best compromise for the keys of the programme

EXPLORE

- Over 850 composers, from the Middle Ages to the 21st century
- Ornaments and treatises of the 17th and 18th centuries

LEARN

- **Solfège**: basic theory and tests
- **Rhythm**: tap a written rhythm, rhythmic dictation
- Intervals, chords, cadences and 30 scales to listen to and sing
- **Sing in tune**: vocal range, warm-up at the piano, intonation over a drone
- **Sing a melody**: 6 steps
- Exercises that are always new

SETTINGS

- **Profiles**: *I'm learning music*, *Pro musician*, *I use my voice*, *Early music* or *General*
- **Mode**: **adult** or **child** (*Young child* and *Independent child*)
- **Index**
- FR · IT · EN · DE; works **offline**, ad-free
